Step 1

Connect the USB cable from the QV**iRace** device into one USB 2.0 port in your PC.
(If the length of the USB cable is not enough, you can use the provided USB extender cable)

Step 2

Insert the provided installation CD into your PC CD/DVD player.

Step 3
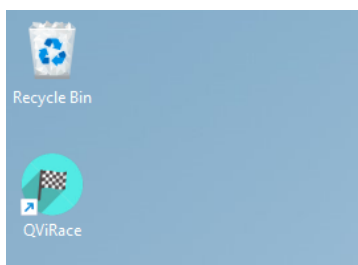

Run the 'setup' file from the installation CD.
(Installation media can also be downloaded from https://qvirace.qvit.com.ar/downloads using the provided download code, printed in the QV**iRace** package label)

Name	Type	Size
DotNetFX45	File folder	
SqlLocalDB2012	File folder	
Installer	Windows Installer ...	52.898 KB
setup	Application	592 KB

Follow the shown steps int the installation wizard in order to install QV**iRace** Software

Step 4

Once installation finished, open the QV**iRace** Software from the icon in your PC desktop

Recycle Bin

QViRace

Step 5

Check the User Manual from the CD to see how to setup your competitions and start racing!
(User manual can also be downloaded from https://qvirace.qvit.com.ar/downloads)
